PROFESSIONAL SUMMARY

Frontend Developer & UI Developer & UI/UX Designer with **7+ years of overall experience** and **4+ years of hands-on experience** in **React.js, Next.js, and Angular**. Experienced in developing responsive web applications, enterprise dashboards, admin portals, landing pages, and reusable UI component libraries. Proficient in **JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, Redux Toolkit, RxJS, REST API integration, Git, and CI/CD**. Skilled in converting **Figma, Adobe XD, and Photoshop** designs into pixel-perfect, accessible, and cross-browser compatible user interfaces. Strong expertise in performance optimization, responsive design, state management, API integration, and modern frontend development with a focus on scalability, usability, and clean code.

TECHNICAL SKILLS

Frontend Technologies: React.js, Next.js, Angular (13–16), AngularJS, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS/SASS

State Management: Redux Toolkit, React Hooks, Context API, NgRx, RxJS

UI Frameworks & Styling: Tailwind CSS, Bootstrap, Ant Design, Angular Material, CSS Modules, Responsive UI, Mobile-First Design, Cross-Browser Compatibility

API Integration: REST APIs, Axios, Angular HttpClient, JSON

UI/UX Design: Figma, Adobe XD, Photoshop, Illustrator, Wireframing, Prototyping, Design Systems, Pixel-Perfect Development

Performance & Optimization: Lazy Loading, Code Splitting, Performance Optimization, Core Web Vitals, Lighthouse, Web Accessibility (WCAG), SEO Best Practices

Tools & Workflow: Git, GitHub, Bitbucket, Jira, Git Flow, Vite, Webpack, NPM, Postman, CI/CD

AI Tools: ChatGPT, Cursor AI, GitHub Copilot, Prompt Engineering, AI-Assisted Frontend Development

PROFESSIONAL EXPERIENCE

Lead UI Developer & Frontend Developer | ExtraMarks Education India Pvt. Ltd. | Noida

03/2025–Present

- Engineered **100+ reusable** React components and integrated **REST APIs across 6+ dashboard** modules serving **50,000+** users.
- Developed reusable React.js and Next.js components across enterprise learning platforms.
- Integrated **REST APIs** with **Redux Toolkit** for student learning, assessments, and dashboard modules.
- Customized Ant Design components and **improved UI** consistency across multiple products.
- Optimized performance using **lazy loading, memoization**, and component optimization.

Frontend Developer & Senior UI Developer | Intigate Technologies Pvt. Ltd. | Noida

11/2022–02/2025

- Delivered 15+ production web applications for healthcare, blockchain, Web3, fintech, and enterprise clients using Angular, React, and Next.js.
- Built enterprise dashboards and landing pages.
- Developed Angular, React & Next.js applications.
- Optimized performance and reusable components.
- Worked on Micro Frontend Architecture.

Frontend Developer & Senior UI/UX Designer | Aims Migital Technovations Pvt. Ltd. | Gurgaon

12/2020–11/2022

- Designed UI in Adobe XD and Figma.
- Developed Websites & Admin Panels and Create many email templates.
- Built responsive Angular applications.
- Collaborated with product and backend teams.

Frontend Developer & UI/UX Designer | Sharp & Young IT Solutions Pvt. Ltd. (MagicBreaks) | Noida

02/2020–11/2020

- Developed landing pages, microsites and HTML emailers.
- Converted PSD/XD/Figma into responsive HTML.
- Designed marketing creatives.

UI/UX Designer | True Web Technologies Pvt. Ltd. | Noida

09/2019–01/2020

- Developed landing pages, microsites and HTML emailers.
- Created responsive designs for 10 websites, optimizing them for mobile devices and increasing mobile traffic by 80%.
- Create many post of Facebook, Instagram, and Twitter.

UI/UX Designer | SEM Reseller Pvt. Ltd. | Noida

12/2018–09/2019

- Designed websites, banners, landing pages, and digital marketing assets.
- Developed responsive web pages using HTML5, CSS3, Bootstrap, and JavaScript.
- Collaborated with SEO and digital marketing teams to improve user experience and campaign performance.

PROJECTS

Extramarks Student Learning Dashboard Platform

Tech: React, Next.js, JavaScript (ES6+), Ant Design, Redux Toolkit, REST APIs, CSS Modules

Live: <https://www.extramarks.com/>

- Contributed to full-stack integration enabling students to access courses, learning modules, and subscription content through interactive dashboards.
- Built reusable UI components with React and Ant Design; integrated REST APIs to fetch and render learning content, progress tracking, and dashboard insights.
- Implemented Redux-based state management for course lists, subscription status, and real-time learning activity tracking across the platform.
- Optimized frontend performance via component memoization, lazy loading, and efficient asynchronous API data handling for large course catalogs.

Extramarks Teacher Assessment & Question Bank System

Tech: React, Next.js, JavaScript (ES6+), Ant Design, Redux Toolkit, REST APIs, CSS Modules.

Live: <https://www.extramarks.com/>

- Built full-stack integrated teacher-facing modules enabling creation, management, and evaluation of assessments through a connected dashboard.
- Integrated REST APIs to retrieve question sets, assessment details, and student results; implemented asynchronous data handling with Redux and React Hooks.
- Developed reusable UI components for data tables, forms, and filtering workflows used across multiple teacher dashboard modules.
- Improved performance through optimized state updates, efficient component rendering, and responsive UI design across complex dashboard screens.

Nebu.la | Block chain Music Marketplace

Tech: Angular 16, Typescript, Tailwind CSS, SCSS, Angular Material, REST APIs, CSS Modules.

Live: <https://nebu.la/>

- Developed responsive frontend modules for a blockchain-based music tokenization platform.
- Built reusable Angular components and optimized application performance.
- Integrated APIs to display digital assets, transaction history, and analytics dashboards.
- Collaborated with blockchain developers to integrate smart contract workflows into the frontend.

Knergy Admin Dashboard | Healthcare Platform

Tech: Angular 14+, TypeScript, Tailwind CSS, SCSS, Angular Material, REST APIs

Live: <https://knergyadmin.knergy.net/>

- Developed a healthcare administration dashboard for managing patient data, reports, and treatment workflows.
- Integrated REST APIs to display real-time health reports and analytics.
- Built responsive dashboard interfaces with reusable Angular components.
- Enhanced UI/UX, application performance, and cross-browser compatibility.

Witly | No-Code/Low-Code Enterprise Platform

Tech: Angular 14+, TypeScript, Tailwind CSS, SCSS, Angular Material, REST APIs

Live: <https://www.witly.net/>

- Developed scalable Angular modules, components, and services for a no-code/low-code enterprise platform.
- Built responsive, pixel-perfect user interfaces using Tailwind CSS and Angular Material.
- Improved application performance, maintainability, and user experience through reusable components.
- Collaborated with UI/UX designers and backend developers to deliver enterprise-grade web applications.

EDUCATION

B.Tech (Instrumentation Engineering) | Kurukshetra University Haryana

06/2013 – 06/2017

CERTIFICATIONS

- 6 months certificate course in React JS Full Stack Developer from DUCAT
- 6 months certificate course in Web Design from Apexgi.in
